## 1. BEGINNERS

We offer three beginners' classes to tailor your introduction to the French language according to your current level and experience. The beginners' classes will give you the tools to start a short conversation about yourself and your family. These courses will help you feel more confident in French. You should plan on having regular homework.

**101 – ABSOLUTE BEGINNERS** is a 90-minute class for those who are learning the French language from scratch.

**102 – FALSE BEGINNERS** is a 2-hour class for those who have been exposed to or followed a couple of sessions in the past.

**103 – FRENCH BASICS AND MORE** is for those who can understand basic conversation.

## 2. INTERMEDIATE

You have been studying French for a couple of years, and you are ready to improve your conversation skills. You will learn how to use a higher level of grammar and new vocabulary.

**201 – PRACTICAL FRENCH CONVERSATION** est un cours de conversation de niveau intermédiaire sur la vie quotidienne et la compréhension d'éléments clés de la culture française. Il repose sur des textes et documents authentiques. Tous les étudiants devront faire une présentation individuelle devant la classe.

**202 – LET'S TALK!** is a fun-based class. Following the calendar of seasons and events, each class is dedicated to a vocabulary theme. Grammar helps to improve the complexity of your oral and written expression. Homework recaps the notions seen and encourages your creativity. We also work on pronunciation. The extended use of online and multimedia resources offers you a variety of true communication situations.

## 3. ADVANCED

You have been studying French for four years.

**DANS LA CLASSE 301 – FRENCH THROUGH DEBATES & NEWS**, vous discuterez autour d'un article de la presse française au début de chaque classe. Une œuvre contemporaine sera également choisie pour la session et elle servira de base à des exercices pointus de compréhension écrite et orale. Vous apprendrez à vous exprimer d'une manière précise en abordant les différences entre les temps du passé et leur concordance, les accords au passé avec les verbes pronominaux, le discours indirect. Vous verrez en détail différents types d'écrits et apprendrez à en maîtriser les règles d'écriture.

## 4. VERY ADVANCED

You tend to fluency in French.

**401 – CAFÉ CULTUREL FRANCOPHONE** is a conversational class where you can discuss the last trends in francophone literature, cinema and arts in a relaxed atmosphere. You should plan at least one visit to a museum, or to see a movie.

## 5. SPECIALTY WORKSHOPS

Specialty workshops are short but intensive classes on specific topics which vary every session. You can attend either one or both.
